**Questions and Answers on Blood
Donation Offered by Red Cross**

With the Red Cross Blood Bank Mobile Unit due sometime in January, questions and answers supplying information about the blood bank and blood donations have been supplied by Mrs. Don Hyde and Mrs. Mel Howard, blood recruitment chairmen for the drive.

They are as follows:
Q.—Why should anybody be asked to give his or her blood?
A.—For the use of Armed Services, for civilian hospital use, and for stock piling for Civilian Defense.

Q.—Where are the blood donations taken?
A.—Our next community Red Cross Bank in January (date to be announced later), Civic Auditorium.

Q.—Who takes the blood?
A.—Physicians and registered nurses only are prepared to take your blood.

Q.—Is any special preparation necessary?
A.—Eat your meals as usual the day of your donation and be sure to have nourishment within four hours of the time of your appointment.

Q.—How much blood is taken at one time?
A.—One pint.

Q.—How long does it take?
A.—It takes approximately five minutes. The donor is then requested to rest 10 or 15 minutes. Following the taking of blood, donors may go about their business normally.

Q.—Who may give these blood donations?
A.—Men and women between the ages of 18 and 60 years of age. Young men and women under 21 years of age must have release signed by parents or guardian. Donors must weigh 110 pounds or over.

Q.—Is there any pain or discomfort in blood taking?
A.—None.

Q.—Can I give a second blood donation?
A.—Yes, in three months.

Q.—Is it necessary to be typed?
A.—No.

Q.—How can I arrange to give a donation?
A.—By telephoning Red Cross headquarters, Torrance 3447 or 3448, or by coming in and signing up at 1754 Torrance Blvd., Torrance.
